

JULY 1975

# VHF-UHF DIGEST

Come to  
Florida  
this year--  
and  
you  
might  
even  
see

Schenectady!  
Schenectady?

YES! It's the '75 W.T.F.D.A.  
ANNUAL CONVENTION  
in FORT LAUDERDALE

more info'  
on the inside

# **publishers' notes...**

**WTFDA HEADQUARTERS, P.O. BOX 163, DEERFIELD, IL 60015 USA**

**1975 WTFDA CONVENTION...** It's almost that time again. Convention host Ken Simon has promised that this year's convention will be one that you won't want to miss! A full program is planned, covering TV, FM, and V-UHF radio. Bob Grove, author of the Confidential Frequency List, will speak on DXing the V-UHF utility bands. Bob's book is well known as a source of "secret" frequencies used by spy stations... The convention is to be held in West Palm Beach, Florida, August 1-3. There's still time to register! Use the convention registration form in last month's VUD or send a note to Ken Simon, 528 Pilgrim Road, West Palm Beach, Florida 33405 (305-585-7415). The registration fee is \$10 and room rates vary from \$14 for a single to \$26 for four in a room. The convention will also feature the usual mountains of free literature. Many prizes will also be given away in the annual prize drawing. If you've ever been to a WTFDA convention you know how much fun they can be. If you've never attended one, now's your chance to join the fun. Ken also points out that Florida has many attractions for the entire family.

**WTFDA TV STATION GUIDE...** Sales of this fine publication have been brisk. We've received more comments of praise for the GUIDE than for any club supply we can recall. It's quite a bargain at the retail price of \$5, and an even better bargain at the discounted member price of \$4. On page 3 of this issue, Clark Ingram updates a few gaps in the Guide, adds a list of promising station construction permits, and even updates the popular WTFDA Translator Guide. We welcome all further additions and corrections to both publications. Just send your notes to FCC editor, Dave Pomeroy. Further changes will appear in the FCC TV News and Data column. In this month's Statistics column, Glenn Hauser passes along a few more Station Guide changes. Glenn also has an interesting procedure for improving audio results on weak TV-DX signals.

**910 MILE UHF HAUL...** On May 18th, Jim Gould of Kokomo, Indiana, logged KVRL-26 and KHTV-39 at an incredible 910 miles. Jim's report and further details appear on page 26. It's worth comment that when Jim saw such favorable conditions, he called Bill Draeb. Unfortunately, weather conditions around Kewaunee were not good, and the duct was not visible. This brings up an important point, however. When a "super" opening occurs and you think that another DXer may be in line for it, give him a call! With the new one minute long distance rates, the maximum charge for one minute to anywhere in the continental US is 56¢. Evenings, Sunday to Friday the rate drops to 36¢ (5-11 PM). From 11 PM to 8 AM and all day Saturday through to 11 PM Sunday, the rate for one minute is only 22¢. These rates are for direct-dialed calls without operator assistance. Next big opening, call a DXer!

**DX PHOTOS...** When sending DX photos for use in the VUD, please indicate whether or not you want your photos returned. If you do want them returned, a self-addressed-stamped-envelope would be appreciated. All DX photos and equipment photos should be mailed directly to photo editor Jim Alexander, Canisius College, Box 2, Bosch Hall, Buffalo, NY 14208.

**ANARC CONVENTION...** The Association of North American Radio Clubs will hold their annual convention in Montreal. All DXers are invited. For full info, write: ANARC Convention, 5766 McAlister Avenue, Montreal, QUEBEC H4W 2H1.

{MORE LAST MINUTE NEWS ON P. 51}

# ADDITIONS TO THE TV STATION GUIDE

Primary source:  
1974-75 edition  
of TV FACTBOOK  
Station data \*\*\*  
compiled by \*\*\*  
Clarke Ingram \*\*\*

First: If you are a WIFDA member and do not yet have a copy of the TV STATION GUIDE (for shame!). I suggest you order one immediately (\$4.00 from WIFDA-HQ) or you may have to wait another three years. Second: If you do have your copy of the GUIDE, it is time for you to update it with the information below. I am pleased to note that the information below is mostly omissions and not corrections, maintaining the high degree of accuracy which WIFDA displays in all its publications. The information is arranged by channel; to avoid confusion, changes in listed information or in indicated stations is presented separately from additional stations to be listed. As noted above, the 1975 TVF provided the bulk of the information. Enough ado, then, on with the info:

- 2 - CBIT2 Cheticamp NS is 2.47 ERP, 611 AAT, repeats CBIT Sydney (5).
- 3 - CKBQ Melfort Sask is 11.5 ERP, directional ant.
- 3 - "KPSX" Glearfield PA should be WPSX.  
KENW Portales NM is + offset, 100 ERP, 1150 AAT.  
"CBJCT2" Creston BC should be CBCT2, 1005 ERP.  
CITM Mt. Timothy BC is 1.30 ERP, 1917 AAT.
- 4 - KYUK Bethel AK is 0 offset.  
KHVH Honolulu HI is now KITV.  
CBHT5 New Glasgow, NS is .209 ERP, 424 AAT.  
CJAY2 Brandon, Man. is 100 ERP, 1444 AAT.
- 5 - CBIT Sydney NS is 468 AAT.  
WBAP Fort Worth TX is now KXAS.
- 6 - KIVI Nampa ID is 0 offset, 60.3 ERP, 2660 AAT.  
KPVI Pocatello ID is - offset, ABC, 100 ERP, 1530 AAT.  
WDSM Duluth-Superior MN is now KBJR.
- 7 - CBHFT2 Mulgrave NS is 106 ERP, 665 AAT.  
CBNAT7 is in Musgrave Harbour Nfld (not NS), + offset, .135 ERP, 438 AAT.
- 8 - CJDG Val d'Or-Malaric BC is 48.9 ERP.
- 9 - KCOO Aberdeen SD is now KABY.  
CBST3 Labrador City Nfld is .214 ERP, 14 dir AAT!  
CKNC Sudbury ON is 550 AAT.
- 10 - CBXAT Grande Prairie Alta is 967 AAT.  
CBNT6 St. Mary's Nfld is .67 ERP, 382 dir AAT.  
CBKMT1 Willow Bunch Sask is 839 AAT.
- 11 - WQXI Atlanta GA now WXIA.  
KINT Tacoma WA now KSTW.  
CBXAT5 Ft. Vermilion Alta is .277 ERP, 222 dir AAT.  
CBKST Saskatoon Sask is 786 AAT.
- 12 - WEAT West Palm Beach FL now WPEC.  
WMAE Booneville MS is 44.7 ERP, 750 AAT, - offset.  
KBLL Helena MT now KTCM; holds CP for higher power.  
KIVA Farmington NM is NBC, 38 ERP, 410 AAT.  
KVTV Laredo TX is 920 AAT.  
CIFG Prince George BC is 4.7 ERP, 1512 AAT.
- 13 - CBIT1 Mulgrave NS is 12.9 ERP, 611 AAT, repeats CBIT Sydney (5).
- 13 - WDTB Panama City FL is 275 ERP, 1403 AAT.  
KSOO Sioux Falls SD now KSPY.  
CHAN4 Courtenay BC is 17 ERP, 1941 AAT.  
CBUBT2 Golden BC is .0114 ERP.  
"CBWTT2" Leaf Rapids Man is CBWQT, 260 ERP, repeats CBWT Winnipeg (6).  
CBNAT8 Conche Nfld is .144 ERP, 462 AAT, repeats CBNATL B.V. Nfld (3).  
CBHFT Halifax NS is 525 AAT.  
CBST Sept Eles PQ is 8.4 ERP, 903 dir AAT.  
CBKHT Reno Hill YT is .248 ERP, 1590 dir AAT.

Obviously, nothing earth-shaking on VHF; just a few tidbits to fill in blanks.

Information on UHF stations and additions are on the following page. ---CMI

# TV STATION GUIDE ADDITIONS (continued)

- 14 - KLAZ Monroe LA is NBC, 513 ERP, 600 AAT.
- 18 - WMAV Oxford MS is 1075 ERP, 1389 AAT.
- 22 - KRWG Las Cruces, NM is PBS, 1730 ERP, 450 AAT.
- 24 - KIDZ Wichita Falls TX is PBS, 6.855 ERP, 534 AAT.
- 28 - WHWC Colfax WI is PBS, 1094 ERP, 1150 AAT.
- 29 - WVIR Charlottesville VA is NBC.
- 31 - WHLA LaCrosse WI is 1200 ERP, 1143 AAT.
- 34 - WNIT South Bend IN is PBS, 589 ERP, 560 AAT.
- 42 - WPBO Portsmouth OH is 521 ERP, 1236 AAT.
- 44 - "WOVC" Cambridge OH should be WOUC, 550 ERP, 1290 AAT.
- 45 - WNEO Alliance OH is 1820 ERP, 830 AAT.
- 46 - WMSH South Bend IN is 891 ERP, 1000 AAT.
- 50 - "KFTV" Santa Rosa CA should be KFTY; believed off the air
- WNJM Montclair NJ is 2094 ERP, 800 AAT.
- 53 - WPGH Pittsburgh PA is 3132 ERP, 1010 AAT.
- 58 - WNJB New Brunswick NJ is PBS, 1321 ERP, 730 AAT.
- 65 - According to TVF, "CBUBT7" Cranbrook BC does not exist. Cranbrook BC already has one CBUBT repeater, and call "CBUBT7" assigned elsewhere. ??
- 67 - WSNL Patchogue NY is 1280 ERP, 440 AAT.
- 68 - KMLJ Los Angeles CA now KVST, PBS.
- 69 - CBUBT6 Spillimacheen BC is 1.84 ERP, 1337 AAT, repeats CBUBT5 BC (75)
- WHFV Fredericksburg VA is 220 ERP, 540 AAT.
- 72 - CHBC5 is in Grinrod BC.
- 75 - CBUBT5 Radium Hot Springs BC is 1.56 ERP, 1488 AAT.

In addition, add the following stations and active GPs to the lists in the TV Station Guide. All are independents (I) except for a dozen or so educational stations, indicated with an asterisk (\*) and one we're not sure of (KSYS-8).

## UHF XLTR UPDATE compiled by Clarke Ingram

As long as we're on the subject of updates, here's three-fourths of a page worth of additions to the UHF TRANSLATOR DX GUIDE, which I am assuming all of you have (if you don't---horrors!---include \$2 along with your order for the TV STATION GUIDE, which had better be in the mail by this time if you want a copy). The bulk of the information below was once again gleaned from the 1974-75 TV Factbook (and it's been seeing much use lately, believe you me.) This should fill in a few spaces. New info is underlined.

CALL	LOCATION	POWER (watts)	PRIMARY
W43AA	Ututao PR	100	WAPA-4
K54AA	Mineral WA	20	KOMO-4
K55AI	Tendoy ID	100	KID-3
K55AJ	Heath MT	20	KTQV-2
K56AC	Murry Canyon NV	20	KLAS-8
K56AE	Heber UT	20	KUED-7
W58AB	Lock Haven PA	100	WBRE-28
K58AD	Mineral WA	20	KING-5
K60AH	Crystal CO	100	KREX-5
K60AI	Mineral WA	20	KIRO-7
W61AC	Waterbury CT	100	WEDW-49
W61AD	Moorefield WV	100	WWVU-24
W63AC	New Market VA	100	WRC-4
K64AF	Mineral WA	20	KCTS-9
K65AB	Appleton MN	100	WCCO-4
K65AH	Loring MT	100	CJFB-5
K65AE	Terrebonne OR	20	KOIN-6
K66AJ	Many Farms AZ	100	KGGM-13
K66AI	Mineral WA	20	KSTW-11
K68AN	Wakeeney KS	100	KOMC-8
K68AJ	Hood River OR	100	KOAP-19
K68AF	Mineral WA	20	KTVW-13
K69AM	Powers OR	20	KCBY-11
K69AI	Junction TX	20	KSAT-12
W69AD	Bennington VT	100	WCAX-3
K70CR	Pagosa Springs CO	10	KOB-4
K72DX (aha!)	Elko NV	20	KTVN-2
K75CW	Elko NV	20	KOLO-8
K76CX	Lucerne Valley CA	100	KNXT-2
K78AC	Beowawe NV	100	KOLO-8
K81BR	Ellensburg WA	100	KAPP-35
K82BT	Tropic UT	100	KUED-7
W83AU	Laurens NY	100	WCNY-24

Note: This list is only a result of research into the missing information in the Guide. I haven't yet found time to check primaries, powers, etc. of the stations already listed. Will do so at earliest convenience.--CWI

WJLA "58.3 Interlockers"  
 Hi now on 6 am-Mid.; 7  
 a.m.-1pm Sat. & Sun.

heard only in song simulating WRIP(AM)

MURDER 29

FCC - FM Back on air: KQSR \*91.7 Pipestone MN; KFGG-FM 99.3

July, 1975

 no stereophonic broadcasting on WDBL-FM  
 TN Tullahoma WJIG-FM 93.3 s, probably m.  
 One reporter calls WJIG-FM "easy listen-  
 ing"; another "rock" (m days; r at night?)

READERS' REPORTS AND COMMENTS

Contributions welcome, but due to time lack most letters are not answered.

Additional SCA stations: Savannah GA WJCL-FM 96.5, Charleston SC WXTX 96.9, Corpus Christi TX KIOU 96.5 and KSJT 97.5 San Angelo TX, all with music on their 67 kHz SCA. Swainsboro GA WJAT-FM 98.3 list as kr; Savannah GA WSGF 95.5 now k; WSOJ Jesup GA g, 98.3. Muzak is about to conduct tests to determine if it can transmit its background music direct to customers by satellite, bypassing FM stations, prompting John Ebeling to wonder if there'll be a 1067 ghz SCA receiver? Two readers sent copies of a Wall Street Journal article on the proposed expansion of Physicians [SCA] Radio Network to 28 cities by the end of 1976; it is operated by Visual Information Systems. "Currently it offers an hour of news, repeated around the clock, and fresh daily. Late this summer it expects to change the news content twice a day . . . [and] each city has time for local medical happenings." There are currently six pharmaceutical companies who sponsor 8 one-minute commercials each hour. Also, I was sent two copies of a WSJ article about the plight of WVCA 104.9 Gloucester MA, which operates about 12 hours a day of classical music "when the owner is in town." Two companies have filed against WVCA, including one that would share the channel with WVCA offering religion when WVCA is not on the air now. The WVCA licensee, Simon Geller, however, wants to keep the channel to himself and share it with nobody. MA-area DKers might do well to listen to WVCA and note how erratic its schedule is—or isn't.

A new FM station is being applied for in Fairbanks AK with 25 kw on 101.1—the area's first commercial FM, will be "beautiful music", and KJNP North Pole AK also files for FM, so that part of Alaska may have program alternatives to KUAC \*104.7, the only FM service now available. The new station will be stereo-equipped, so-called "quad" [matrix]. KJNP's FM adjunct will presumably be gospel. KJNP applies for 100.3 25 kw h,v; 1570'; the 101.1 station for -41', 1 v.

Sharp-eyed Nick Lombardi noted that the secondary signal coverage for WKLS Atlanta seemed low (p. 5, May VUD), and he's right. Instead of 65, it should have been 95!

The new WWWJ 103.1 Johnstown OH has its staff almost entirely composed of former WBBY 103.9 Westerville OH people. The SCA of WKVO-FM 94.7 Columbus has improved in its tone quality, with Muzak, as is also the SCA of WTVN-FM 96.3. WWWJ will be on 6 am until midnight local time, carrying the Cleveland Indians baseball games, so on nights when the Indians are on the west coast, expect WWWJ to be on past midnight.

A strike application has been filed against WQIV New York for its 104.3 channel; would be classical, but there's reliable word that WQIV is agreeing to a sale which would return its format to classical, and probably its call letters to WNCN, unless somebody grabs the WNCN calls in the interim. Extra-hemispherically, Bangkok, Thailand TVs simulcast, at least part of the time, in English on FM [same as on some Puerto Rico stations, with FM allowed to offer up to 25% of the FM schedule an English TV dialog].

KQRS-FM 92.5 Golden Valley MN plans to offer periodic "test patterns" on Monday mornings after the midnight sign off time; to give listeners a chance at testing stereo separation, etc. I wrote, urging frequent identifications and advance notice so that tests can be publicized in the VUD. In OK, KOSU, planning a new tower, might relocate in Arcadia, to serve both licensed Stillwater on \*91.7 and Oklahoma City. WGMW 94.35 Riviera Beach FL now m after being sold. WHRS \*91.7 Boynton Beach FL trying to get more money and a frequency change for higher power to better serve Spanish-speaking folk.

WPLB-FM 107.3 Greenville MI now s, k; WLIP-FM 95.1 Kenosha WI has rock at night, mr. WAUR 107.9 Aurora IL has Mutual news (at least at 9 p. m. it does). WJML-FM 98.9 Petoskey MI illegally announcing power as 200,000 watts (instead of 100,000 h & v).

WKQQ "wherever that is" (see April VUD, p. 9) is on 98.1 and in Lexington KY, which brings to mind the fact that when giving information about FM stations to this column to please list city of license and frequency for each station. I am somewhat knowledgeable about FM, but to save time in having to list information, I'd like this to be provided by the persons who do the reporting. WQSU \*88.9 Selinsgrove PA on noon to midnight. WGC8-FM 96.1 Red Lion PA stands for The World for God, Christ and the Bible. Look for reporters' names to be run next month!

FCC-FM continued on page 29...

I don't know about the rest of you, but my receiver hasn't exactly been overloaded by "skip". The few periods we've had have been short-lived and haven't produced many new stations. Of course, maybe I just need an outdoor antenna!!

#### MILITARY STATIONS

The following VHF low-band frequencies are in use at Fort Sam Houston throughout the year:

- 30.50 MHz--Military Assistance to Safety and Traffic  
(call "MAST Operations");
- 34.20 MHz--Camp Bullis Firing Range Control  
(call "Bullis Range Control");
- 41.50 MHz--Post emergency frequency;
- 46.70 MHz--Health Service Command tower  
(call "HSC Tower").

Unfortunately, tactical callsigns and authentications are not available. Even if they were, they change so fast that they'd soon be out-of-date.

If you have similar information on other military bases, send it along. I'll be happy to print it!

#### EQUIPMENT

If you've ever had the urge to build a scanner from scratch, but haven't had the technical know-how; or wanted to build a scanner kit, but the one on the market didn't suit you, REJOICE!! Hamtronics, Inc. (182 Belmont Road, Rochester, NY 14612) has an absorbing assortment of receiver modules, scanner boards, low-noise preamps and UHF converters. They also have other items that might interest some experimenters.

In case you want a converter or preamp, but don't want to put it together, Janel Laboratories (P.O. Box 112, Succasunna, NJ 07876) has a complete selection to choose from. I've been using one of their dual-gate MOSFET preamps on the aircraft bands for the last three years and have been very pleased with its performance.

Both companies will be happy to send a catalog on request.

#### PUBLICATIONS

Another new directory has been released by CRB (P.O. Box 56, Commack, NY 11725). The News Media-1 East directory lists about 1300 radio/TV/newspaper communications stations east of, and including, WI, IL, KY, TN and MS. The listing appears to contain plenty of information, but lists only nine low-band VHF stations, so it won't help much in identifying "skip" stations. A companion volume, covering the rest of the U.S., was to be released in April, but I haven't seen it. Price of the directories is \$3.00 each, or \$5.00 for both, postpaid.

#### TECHNICAL STUFF

Ever wonder exactly how your scanner works? If so, head for the nearest library or dig around under the bed and flip to page 58 of the December 1971 issue of Radio-Electronics magazine. The article looks at a "typical" scanner, and should be understandable even to the non-technician.

#### LAND TRANSPORTATION RADIO SERVICE

The "LTRS" is almost self-explanatory, but for the sake of completeness, here's what it looks like:

- Motor Carrier RS--Motor carrier passenger and property transport service operating either within or between urban areas.
- Railroad RS--Railroad common carriers engaged in the transportation of passengers or property over rails (either wholly or in part).
- Taxicab RS--Nonscheduled passenger land transportation service over an irregular route.
- Auto Emergency RS--Auto owners associations that provide private emergency road service.

CITIZENS RADIO SERVICE

The only subservice of interest to VHF/UHF DXers is the Class A Citizens Radio Service. These stations operate between 460 and 470 MHz, and carry personal or business communications, signalling and control of remote objects by radio.

OTHER RADIO SERVICES

After several months break while I finish presentations on radio systems and the new section on verifying PSB stations, we'll take a look at stations in the Aeronautical and Maritime Radio Services.

PUBLIC SERVICE QSL's

Most everyone has a multi-band portable radio covering one or more of the public service bands; many listeners have a scanner tuned to local police and fire departments; and some DXers spend their time exclusively monitoring the public service frequencies. But with all the listening there seems to be little interest in verifying these stations. In the hope that this lack of interest stems only from not knowing how to go about getting those QSL's, I'd like to spend several columns on the subject.

Although the same basic techniques may be applied to most types of VHF/UHF stations, I'll concentrate on the Public Safety Radio Service because that's the one most of us listen to. Future articles will deal with verifying stations in other services.

Public Service Stations Are Different.

That's right! They're as different as day and night from the TV, FM and short-wave stations you're used to QSLing.

First, they're on the air for only one reason—handling life-or-property-endangering emergencies. They're only interested in contacting their mobile units and other public service agencies, and have no need for reports from casual listeners.

Second, unlike the TV station down the street, these agencies don't have program directors or engineers to handle reception reports.

Finally, many agencies (the Houston PD for example) use IBM cards and magnetic recording tapes rather than conventional log books. This makes it difficult for them to check the details in your report.

Doesn't sound promising, does it? Well, you'd be surprised what can be done just by following some simple guidelines. We'll start next column.

MORE PUBLICATIONS

Other clubs and magazines publish semi- and non-technical articles and columns of interest to VHF/UHF DXers. To insure that you're kept up-to-date, here are several you might look into:

CB Magazine—(531 N. Ann Arbor, Oklahoma City, OK 73127).

Contains Gene Hughes "Now Hear This" on a regular basis. The column carries good semi-technical discussions on a variety of subjects. I recommend it!!

Elementary Electronics—(P.O. Box 2600, Greenwich, CT 06830).

Articles are for the beginner, but every so often they slip in an equipment test report or other goodies to make a subscription worthwhile.

S-9 Magazine—(14 Vanderventer Ave., Port Washington, NY 11050).

"Monitor Post" carries information on experimental licenses, FCC rule making and some new products. At times the author sounds like he works part-time for ORB. A new column focusing on business/industrial radio started in the June issue.

NNRC Bulletin—(Newark News Radio Club, P.O. Box 539, Newark, NJ 07101).

"Information Please" column has great potential if enough people ask the right questions. "Utilities" column generally runs four pages and lists some VHF/UHF stations.

That's it for July. Drop me a line and let me know what's going on.

75. Perry

A blank space indicates no receptions on this frequency/propagation are known. We suggest that DXers concentrate on these channels during appropriate propagational periods: We would like to have listed above two excellent catches reported as tropo by Mike Dalton: 96.1 WAKL Mayaguez PR 1190; (surpassing 96.1 Guatemala 1060); and 96.9 XHOD San Luis Potosi SLP 1190. We suspect that if anyone is in a position to DX the first known FM tropo from Puerto Rico, Central America, and the Mexican interior, Mike is; but we are not convinced (nor is Mike) that these could not have been he. In order to be certain of propagation, the FM DXer sometimes must take clues from television openings at the same time.

For newer members, we should explain again that for FM DX records, DXers must send in candidates to this editor for them to be considered; we do have the time, however, to scan published reports for TV records, though this may entail a considerable delay.

\*\*\*\*\*  
**FINALLY!** We get a chance to add some further thoughts to YUD April 1975, p. 10. While the TV Band Radio obviously has its merits, there is another, and we believe better way to separate frequency offsets: monitor the TV set's audio IF directly on an ordinary 30-50 MHz radio. If the radio has sufficient selectivity to separate offsets on one TV channel, it will have the same capability on any other VHF (or UHF!) channel, since all channels have been converted to the common intermediate frequency. Since at the IF the audio is "flipped" to 4.5 MHz below the video, the offsets are also reversed. The actual spot where the TV set's audio IF appears depends on the precise fine tuning setting, but ideally:

PLUS : 41.24 MHz      EVEN : 41.25 MHz      MINUS : 41.26 MHz  
(Video: 45.74                      45.75                      45.76)

Once you try this, you may well prefer to monitor DX audio on the radio. You may be amazed to hear how much of the audio fading you encounter on TV is not due to real fades, but because the TV set deliberately fades out the audio whenever the video fades! This technique allows you to monitor video and audio independently, as ought to be possible on a TV set alone, but because of the infamous intercarrier system, is not. The TV set's IF oscillator is a tiny transmitter; you may find it helps to (nearly) connect the radio and TV antenna terminals. My thanks to Dick Clark for pointing out this approach, which is a considerable improvement over video-carrier injection, which blots out the video.

Some corrections to the WPTA TV Station Guide: 2 KBCI, not KEBI; KTWQ-TV; 3 WFSX; 4 KAMR, not KENG; 5 KXAS, not WBAP; 6 KYIE (map) offset 9 not plus; KXTV is 1 not ABC; 12 WHAR (map) is in wrong state; 13 KVTY is not a but a satl. of KZTV-10. Some further clarification of the Canadian network keys would be helpful. Overall, the Guide is quite accurate. If you haven't yet ordered your copy, don't wait any longer! 73, Glenn.

CLARKE W. INGRAM, 5201 COLEWOOD DRIVE, PITTSBURGH, PA 15236 (412) 892-2497.  
DEADLINES: AUGUST 15 (TV SCOREBOARD); FM TO BE ANNOUNCED LATER. REPORT NOW!

Hello once again! We've got plenty of business this month, as well as the FM Scoreboard, so let's get to it. Your letters/comments are always welcome.

STILL MORE ON THE VHF SCOREBOARD...In case you're wondering why the FM deadline above will be "announced later," it's because we may have finally resolved the previous problems confronting the proposed VHF Scoreboard. Terry Colgan, PS Spectrum editor and VHF-UHF DXer, has presented several guidelines for consideration. I publish them here for your critical comments.

1. As long as the DXer did all tuning, IDing, etc. himself, he should be able to count the station if it meets all other requirements.
2. Without the name of the city, county, state, province, country or agency, all call letters/numbers must be heard to count such stations.
3. If no call is heard, but the city, county, state, province, country or agency is heard, the station may be counted only if a single call is shown for that station on that frequency. If more than one call is shown, the station may not be counted.
4. The VHF Scoreboard should include all AM, CW, and FM stations licensed to operate in the following bands: 30-50, 108-136, 150-175, 225-400, and 450-512 MHz, and all military stations operating above 30 MHz.
5. (On the problem of one agency having one call for many transmitters--CWI) If the transmitters operate on different frequencies, they are counted as different stations. If the transmitters operate on the same frequency, then we (should) arbitrarily assign the location to the dispatching point, rather than the transmitting location, and count it as one station.
6. Similarly, there is no real problem with an agency having many calls for one transmitter. In many cases, these calls are assigned to different dispatch points which share a common transmitter. In these instances, each call would again be counted as a separate station.
7. The aero (section of the) Scoreboard would have to be handled differently from others...four columns (should) be used for UHF: 1) number of ground stations (118-136 and 225-300 MHz); Navais (108-118 MHz); 3) Aircraft stations; and 4) total UHF stations. Another three columns should be used for UHF aero: 1) Ground stations; 2) Aircraft stations; and 3) Total UHF stations. Finally, a combined total for all VHF-UHF stations.

There you have it...If you have any comments, questions, or suggestions as to the VHF Scoreboard, please let me know. VHF-UHF DXers, please send me your opinions on the proposed guidelines above. We'd like to get the VHF Scoreboard off the ground before 1976.

FINALLY: A letter and card from Frank Wheeler have been the highlight of this month. Frank writes, "Regardless what others say about listing totals, etc. I still like your scoreboards...Keep up the good work." Joseph Smith also writes to tell me that I'm "doing a good thing in (my) column." After the saturation controversy, it's nice to know that someone still enjoys the column!

73. *Clarke*

## REPORT!

Here's all I say to those WFDA members, both new and old, who have not yet contributed to the Scoreboards. For you newer members, it should be easier to compute your totals, particularly the often-ignored average distances. Let's hear from the over-200 members who haven't contributed!

A brief explanation of Scoreboard format for our newer members: Under "STATIONS" above, from left to right, the columns are: Total stations; total received between 88.00 and 91.99 MHz (US educational band); total via E-skip; total via meteor scatter; total via aurora. Under "POLITICAL UNITS," left to right: total states (a + indicates D.C.); total Canadian provinces; total Mexican states; other countries (1 point for each). Under "AV DST," Tr is average distance of all stations received via tropo; MS, via MS.

# EASTERN TV DX

Bill Thompson  
1907 Seneca Street  
Buffalo, NY 14210

July 1975

**Deadline: 10th**

For the majority of Miars who report to this column, this year's Bs season started great. B-skip has been reported daily in May beginning with the 13th, with the sole exception of the 18th. Some openings were very good, and a few were exceptional—such as the 27th, when Bob Seybold had double-hop from Puerto Rico with MUF into FM! If that's not enough to convince you that May 27 was super, Bob phoned the editor and mentioned tentative reception of WFLA-8 Tampa, FL! Unfortunately, after all the activity in late May, early indications are that skip dropped off drastically—a great disappointment for Miars who saw mostly optimum-range logs, but thought that the abundance of May openings meant a good June would follow. As of typing time, openings continue disappointingly short with abnormally low MUFs for what should be the best part of the skip season.

May 5-skip dates:	8	13	14	15	16	17	18	20	21	22	23	24	25	26	27	28	29	30	31
number of reporters	1	2	1	9	7	5	5	7	4	9	4	5	2	3	8	9	5	2	8
MW is at least:	969	4	4	6	4	4	4	4	4	95	3	4	5	4	6	87	6	3	2

"Location is about 5 mi. west of Hamilton, Ont. I hope the summer holds many similar openings in store, and if so, I'll report all such reception for sure. UHF DX is not possible right now due to no antenna, and FM DX won't really be possible either until a better receiver is obtained. Best of luck to all in the 1975 Rx season!"  
 Equipment includes 19" Electrohome Colour TV, rotatable antenna at 35 feet.

"Tropo was good towards the end of May, w/some better loggings made on FM. CPVO-30 is the longest UHF so far, Re was good the last few days of May, but haven't noted too much of it otherwise (may have missed some openings —haven't been able to check as often as I'd like to). Most Re noted here has been to the South. Hope this year's Rx season has gotten off to a good start for all."

John Combs 816 W. Harvard Orlando, Florida 32804 (EDF)

"DKing activities have been curtailed due to many factors—lack of time, inoperative rotor, lead-in that needs replacing (a no \$ to do it), etc. In the meantime, I am doing limited DKing (when I have time) with a loop UHF antenna & rabbit ears, plus whatever I can pick up via CATV (as on May 25). I will be attending Oberlin College in Oberlin, OH in September. My TV will follow and possibly, I will be able to install some kind of temporary bracket for at least a 4-bay antenna. Until then, this may be my last report for awhile. Log stands at 235."

**CORRECTION:** In last month's VUD, your editor incorrectly stated that DKers in western Pennsylvania should report to this column; it should have read eastern Pennsylvania! Apologies for any confusion that might have resulted. Also, for DKers in PA in doubt as to which editor their reports should go to, let's call the University Park-State College area the dividing line.

"Only one new station here in the past half year. The antenna system slightly changed here, now using a 4 bay antenna at 55 feet instead of the 5 foot dish at 50 feet. I now am clearing the school across the street which should bring many more New England stations. Antenna works just as good as the dish except to the north where everything is 10 times better. The reason for the antenna change was the wind storm on April 4th, 80 MPH winds here at times folded my steel pole. The trope reported on 5-21 was weird. I woke up at 7 a.m. to check the band and Washington was in there good. I went back to sleep and was awakened at 8:45 by thunder, I checked the TV again and had 40 or so stations on UHF in there and couldn't count them all. By 8:58 the thunder was so close that I had to disconnect my TV lead-ins in case of lightning striking. I figured the band would be good after the storm passed over in a few minutes. Well, at 9:15 I got the lead-ins from outside my window and connected them to my set, and the whole band was dead! I had Washington in, but weak, and semi-locals at their usual level. Then, a big spark came out of the back of the set and then a rear from outside. I quickly jumped out of the room, then came back, checked the TV for damages—none—then went back to sleep. Was I dreaming? (If you weren't, Mother Nature must really have it in for you! Seriously though, I'd suggest that you make sure your mast is properly grounded—you might not be so lucky if it happens again for real! -bt)

**Pennsylvania Public TV's answer to "Aviation Weather":** Many TV HERS have been able to make use of the very detailed weather maps on PBS' "Aviation Weather" telecast on many PBS outlets on Friday evenings (some carry a Thursday version also). PPTH, Pennsylvania's Public TV network, runs a Monday-thru-Friday 15 minute program "State of the Weather, Shape of the World" at 1800. The program has helped a few Eastern HERS follow the movements of trope-producing high pressure areas. If you're in watching range of a PPTH affiliate that carries this show, take a look!

The Es season got off to a super start, but just seemed to slow down when things were getting good. The first two weeks of June have been very disappointing. Tropo hasn't been anything special, but way above last year at the same time. WKBS-61 Cleveland (usually present on troposcatter) has not been seen for a long time; looks like another victim of recession. Now why can't that happen to my locals? Anyone want to trade TV GUIDES?

Deadlines: 12th

The E-Skip finally got underway here but most of the openings didn't reach ch. 6 and what there was, was for the most part on the weak side. May 27th was the most interesting as skip started out from Florida moved over to Louisiana, Texas, Montana, Washington(state), Alta., then jumped back over to Nova Scotia and then down the East Coast of the U.S. and came to an end in North Carolina.

Trops openings were, for the most part, non existant, at least at this location.

(muf to 94 rhz)

"During April, tropo peaked 4/17 and 4/18. KVRU-26 appeared many times. In May, tropo finally went north, the 21st and 22nd being the best. UHF stations came in from KY., Oh., and In. On the 21st channels 41 and 68 in Louisville were snow-free. So was ch. 19 in Cincinnati. also, May brought the first us to the North (N.Y. state). During this reporting period 31 new stations were added." (Wow!!!-what a haul-w.d.) Total now at: 212

Thanks for the report Frank. Sorry to hear your antenna and TV are in "so-so"  
 condition. You seem to do fairly well in spite of it.

The reason you are in the Central Dx area and Cooper is in the Eastern, is  
 that at one time the Eastern editor had many more reports going to him than  
 the Central editor and therefore, some of the Eastern states were added to  
 the Central Dx area to divide the reports up more evenly.—wd.

"All of the above were logged using only an indoor quad loop antenna, cut for channel 2, in addition to a Channel Master low band at 20 feet; the U's were logged on a Parapro at 25 feet with a CK amp.

May 23, we watched KUTV-2 at 1100 miles for 2 hours, 90 minutes of which the picture and sound were both local in quality. KFTB-3 is our first Mexican received and EDED. On May 28, I watched Sask's news show at 1100 EDT, which featured several announcements in forcing viewers in Central Florida that the pro lem with their lectures was severe co-channel interference, "a normal atmospheric phenomenon for this time of year." In their QSL, the ce told us that the channel "giving them fits" was probably someone in my area, "probably WBBM-2, Chicago."

Bad news for us here: earlier this week I was blowing some grass two feet long and accidentally sliced through our rotator wire and our Belden 8290 shielded lead in that we use for UHF; we paid \$11 for the Belden (ouch!). Thanks alot to Ken Simon, who responded quickly to my request for a copy of the Spanish report form letter. Yesterday I used it to send a QSL request to KFTB-3, Monterrey."

"As you can see, I have nothing earthshaking to report, but I figured after two years as a WFFDA member I had better report something, hi! (another one comes out of the woodwork--wd). For those unfamiliar with my predicament, I am located in Pittsburgh's deepest valley, which a 100-foot tower would not even clear. This has limited my totals to a measly 77 stations. E-Skip does appear from time to time, however, and the first opening of the season was noted on 5-22 (a rather nice day-after-birthday present, hi) with MUF up to channel 5. Nine days later, the usual summer influx of Floridians began with the earliest Es ever noted here--at tune-in 0830, MUF was to ch.5 again (it may have begun much earlier). Unfortunately, only relogs seen to date. A friend of mine, Tim O'Malley, who just joined WFFDA, has a far superior location about one mile distant (on top of one of the hills hemming me in); we are considering setting up for UHF at his QTH, and doing all serious tropo DXing there, while concerning ourselves with Es and Ms at my place. (sounds like a good idea--wd) As an indication of the difference between our locations, he can receive Youngstown U's 65 miles distant--nearly snow-free using just a modest indoor bowtie, while down here a corner reflector at 30 feet produces absolutely ZILCH. Enough griping for now; hope my dismal loggings from the "City of No Dx" will inspire other members with

superior conditions to contribute. Keep up the great work with the Central TV DX column, Bill. (I'll try--wd)

"Well, "Trop Haven" had a field day this reporting period, having logged 6 new stations, adding another province to my list, CHAC-2 Kelowna, B.C., a double hop (that's debatable--wd) over a path of 1530 miles. Total stations logged to date: 287, 34 UHF, 35 xlters, 36 states and 8 provinces. I'll cut it short this month, as I know Bill will have a lot of reports this month in his column." (I took the liberty of leaving out the tropo loggings as 99% of them are seen every day by Paul. I would also like to make this note, the headline of this column is the 12th and I hope every one abides by it, particularly during the summer months as every one has a lot of DX to report and that makes this column long.--Until next month, 73's.

w.d.

## ----- More "FCC-FM" News:

Mark Lewis says WLWU 99.9 EriePA has an excellent signal across Lake Erie, refuting something I'd said earlier about their signal being bad [I'd say it's very bad driving just a few miles NE of Erie, where CKFM starts to dominate]. Canada's mighty CN tower is approaching completion, and an improvement in CJRT 91.1's facilities is imminent. Both WOMC 104.3 Detroit and WBN-FM 102.5 Buffalo get out well, especially on car sets in and around London, Ont., which prompts me to suspect WBN-FM has vertical.

DX Program on WNRR 92.1 Bellevue OH, at about 5:05 p. m. local time either weekly or alternate weekly. Tune in, if you can get WNRR, and report to Mark Hoersten % WNRR, zip 44811. Programs will most likely be heard on Fridays; its future depends on response.

The owners of WUUN 100.1 are buying WDMJ-AM Marquette MI; WDMJ-FM, it's removed, will go gospel, leaving no MOR in the market.

New Orleans' WYLD-FM 98.5 on air with soul music, \$, featuring popular DJ, "Dr. Daddy-O," 2-6 p.m. daily. Guadalajara's XHRA 89.1 and XHJL 91.3 both stereo, rock, and neither apparently having English announcing any more. Returning to \$ is WRRJ 95.3 Southampton NY. WNBC-FM 97.1 New York to go to "WNWS," all news. Washington's WKYS 93.9 expected to go rock when companion AM goes news. WHOM-FM 92.3 New York now progressive rock in morning and early p. m.; Spanish MOR at other times.

In Pittsburgh, WKTQ(AM) and WSHH 99.7 were to help out a local high school station with much hallyho, but they backed out, seemingly caring only to have their calls plastered around the school's halls. The school plans to apply for 10 w on \*88.7. WVWR-FM \*89.1 Roanoke VA should be 100000; 1970's by fall (Sept.), NPR affiliated. WKKW 104.1 not heard recently in Phila. area; off the air? WKKW is in Allentown PA. WMSG-FM 92.1 Oakland MD k; WQCM 96.7 Halfway MD, WAAT 92.1 Johnstown PA r, both I.

ADDRESS FOR 9-JUL DEADLINE:  
Dennis Park Smith  
722 Rosewood Avenue  
Waco, California 93780  
Telephone 805 758-2832

[A report in this month's column goes back several months, with Es in January. Check this report if you wish to add this to the latest Es chart for that month. All other reports in this issue contain Es for May.]

FOR 7-AUG and 10-SEP DEADLINE:  
Dennis Park Smith  
2237<sup>1/2</sup> Ceres Avenue  
Chico, California 95926  
Telephone 916 343-9424

Well—by deadline for reporting to the June column, Es was still quite scarce. But after that, starting about the 6th to 8th of May, things started to improve. And since mid-May, Es conditions have been excellent, as you can see by the chart. Tropo—a little. MS—also some. But Es pretty well covered up the other modes this time.

There were 12 days of Es between May 18 and 30. A little Es was noted during the first half of the month. So far, there has been only one day of FM Es. Tropo has been rather low, but on May 14 it hit record levels on UHF with San Francisco signal levels at a VAPI of 3335. Seven new stations—six of those by Es. E2 was near 50 MHz during the early evening of June 1. I would like to see a little more FM Es in June.

## Dave Pomeroy, Topeka, Kansas

(Aug 1974 - 4 Jun) (CST; CDT)

It's been a while since I've reported, so I'll try to catch up a bit. This is my final report from this location as we're moving across town this weekend. Tropo has been rather nil, but skip is finally starting to pick up. New location is quite higher so things should get a little better! Starting with August 1974:

After the weekend, the month of May produced some outstanding DX. Especially good was the opening into the California and Nevada area on the evening of May 26.

\* - by audio on an FM radio

Wow! What a month for Es! Hardly a day went by without an opening. As you may know (no—I didn't..dps), I'm a newsmen with KOAT TV here. Actually, I'm the assignment editor. So I assigned one of my reporters to do a feature on TV-DXing. (I was the TV-DXer in the piece.) The audience response was very good. I had several phone calls and even some mail from people who like to check channel 2 from time to time to see what's there. There are a lot more—at least part-time—TV-DXers out there than I thought. (Great feature story, Buck! dps)

Hello again everyone, FM NORTH returns after a few months gone by without any reports recieved. Well, it looks like it's DX season again with the number of reports recieved this month. There were many new reporters this month, which I would like to welcome and Hello again to the regular reporters. '73, good Dx to all & keep reporting. (ED).

J. Joel Rosenberg - 47 Pannahill Rd. - Downsview Ont. M3H 4N4 416-633-1769  
4/14 (EST) 5/13-6/1 (EDT)

This is my 1st report to an FM-DX column. My prime interest is TV, although during the period from early 1970 to mid-'72, I did ~~FM~~ DX on FM when relays were in on TV. Using a table radio, during that period, I logged 90 stations, six by Es.

The recent purchase of an FM tuner for family use-a JVC model-has renewed my interest in FM. I hooked up a channel 2-4-7-head fixed south @ 50ft. A.G. Here is my log for period 4/14 to 6/1/75. Good Dxing to all.

**Harry Hayes - Star Route - Box 226C - Gouldsboro PA 18424 (EDT) 5/14-5/31**

I'm beginning my 6th season in FM DXing. The season is starting out slow with little Tr to speak of and even less Es. My FM experiences these past 5 years have been done w/rabbit ear type antennas and this year my equipment is about the same. I use 2 FM sets: one is a Masterwork stereo on RCA ears the other is a Zenith Trans-Oceanic on its built in aerial.

The stereo is very sensitive on rabbit ears but suffers w/poor selectivity. The ZTC isn't quite as sensitive as the stereo but has great selectivity.

JULY 1975

FM-DX rpt of Harry Hayes Cont'd

Most of my Dxing thus far has been cleaning up on nearby stations that have eluded me thus far. New underlined, Allheard on Zenith.

In addition to above, several stations in the area have been observed way off freq. KDSN 107.1 Dennison, Iowa has been rcvd on 107.3 and even on 107.5 They have been off freq. for several months. KDHL 95.9 Fairbault MN was also way off for three days, being up to 96.5 prior to my calling the local FCC office and talking to one of their engineers. He didn't seem too concerned, and it was two days later that they got back on 95.9. I guess the FCC has become remiss in their enforcement.

P.O. BOX 784  
MISSOULA, MT 59801  
TEL: (406) 549-5365  
DEADLINE: 10th MONTHLY

For the benefit of those that missed my announcement in last month's column, this will be my last column. Hold all reports until notified by HQ as to your new editor. I will be moving to Miami shortly with stops along the way. My whereabouts the next few months will be in question. And thanks to all that supported this column. 73's, Roger

Glenn Hauser, 1312 West Oak, Enid, OK 73701 (6 May-7 June) (CST)

Am managing to pull in a bit of FM DX, using my formerly standby Astronaut-6 portable, but with the usual 10-element FM antenna at 20 feet, CADCQ interdigital pre-amplifier, and Archer Servo-Rotor. So far, the En season doesn't seem to be anything special.

Comments: The Re season has so far turned out to be more active than it looked like it would be a month ago. On several of the Re openings there has been a big problem with strong in-state tropo signals (up to 200 mi) covering things up and making a general mess of things. Tentative reports have been sent to some of the tentative loggings that would be new stations. Results, if any, later. 73, Pat, WA5IYX

## FM NORTH

JULY 1975

John Csnarnowski - 255 Oakwood Ave - Staten Island NY 10301

This is my 1st rpt to the column, although I've been a member of the WTFDA for over 2 years. I was busy w/my studies in pharmacy school, but I've graduated on May 11 and will take the New York state Pharmacy Boards Test in June (Hopefully to be licensed by Sept.), so now I'll be able to devote more time to DX-ing. Equipment is a Pioneer SX-727 reciever w/an old TV antenna on an Alliance U-100 rotor. I have a Finco FM-5 antenna, which I plan to install in June after the test. Standby is a Sony TFM-7200W Portable. I also DX in my VW using a nice built in AM-FM Stereo.

So far stations rcvd are local or semi-local--Nothing spectacular--(What do you expect for living only 10mi. from Empire State Bldg...) Another hindrance (or help) is that on the next block, right in my path to NYC is a 6 story apartment bldg in the middle of an area of 2 story-one family homes, therefore, this may be why some Phila. stations are locals w/out turning the antenna. For example,

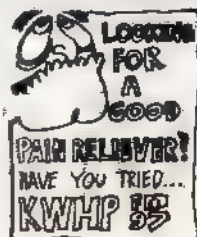

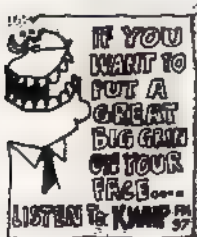

Every Night: 94.1 WYSP Phila., (90mi.) w/rr - under WNVC  
 95.7 WFLM " " w/Clx- under WPLJ  
 98.1 WCAU " " w/rr - under WEVD  
 102.1 WIOQ " " r  
 106.1 WWSH " " NH

also 93.5 WVPO Stroudsburg (65) after WVOX s/off  
 95.1 WEZV Bethlehem-Allentown, PA w/m (75)  
 96.1 WLEV Easton, PA (60) w/rr Hit Parade  
 96.9 WFPG Atlantic City, NJ (90) m

My 2 best catches in April were,

4/5 0045 102.5 WRFY Reading, PA under WNEW 102.7 (100)  
 4/12 0020 102.9 WDEC Hartford, CT w/r (120)

WRFY usually comes in ferquently after WSUS 102.3 in Franklin, NJ signs off. (semi-local). ■ '73 John.

# PHOTO-NEWS

Jim Alexander  
8 Court Knolle  
New Hartford  
New York 13413

July, 1975

School has ended, and the New Hartford address is once again valid. Send all photos to the New Hartford address until further notice.

This month, we are running a couple of photos taken semi-locally. They are of low-band VHF-TV, and hopefully will be helpful in solving un-id's (especially now that Es season is here). Future use of photos such as these is being considered, and will depend on member response. Photos of actual DX reception that will come out in publication continue to be in somewhat short supply; if photos taken locally/semi-locally are satisfactory to readers, they should prove useful in taking up some of the slack. On to this month's photos:

WJIM-6 Lansing, Mich (PG)

WTVR-6 Richmond, Va.  
100 mile GW (GK)  
(photo taken from Staunton, Va.)

WVIA-44 Scranton, Pa.  
545 mile tropo  
5:52 AM 19 Sept. '74 (JE)

KTWH-12 Hutchinson, Ks.  
650 mile tropo  
1:20 AM 28 Sept. '71 (JE)

Hope Es season brings everyone some new stations, and that this month's low-band photos help out w/some un-id's. Let's have some feedback on this! Of course, any other ideas/ suggestions are also most welcome. Let your editor know what you want to see in the column.

Contributors this month: PG = Paul Gaines, Detroit, Michigan; GK = Greg Kelley, Roanoke, Virginia; JE = Jim Gould, Kokomo, Indiana

73 and good DX, Jim

# CC1

Frank Aden, Jr.  
448 NE Olney  
Bend OR 97701

July 1975  
Unidentified TV IN

Deadline 10th of the month

The IN season seems to be under way as some units have come in. IN here has been good so far. I hope it will keep up.

Scott Sampson, 1085 14th Ave. A, Orion, MI 48073 (1975 units)

Thu May 22 Re ch 2 1630 EDT--Ad for "Joni's Mobile Home" and "Wood's Mobile Homes" in Monte Vista; suspect KSNB-Denver but the phone company in Monte Vista, CO, has no phone # for these; is there another Monte Vista? Could not find any other listings, might be an unincorporated suburb (FEA).

ch 2 1635 EDT--"Hogan's Heroes"; ad for a drapery store with showrooms in London-Toronto-Ottawa.

Fri May 27 Re ch 2 1240 EDT--"Let's Make A Deal"; FTA: SW U.S.

ch 2 1327 EDT--Slide with the words "Musical Interlude"; audio was country instrumental music; whole thing lasted for several minutes. FTA: NE U.S.

ch 2 1404 EDT--Commercial for "Schneider Prepared Meats, where quality makes the difference." FTA: NE U.S.

ch 2 1409 EDT--Canadian Talk show entitled "Lee Remick (?)"; FTA: Eastern Canada.

ch 2 1409 EDT--Canadian Talk show entitled, That Talk Show; the host's name was Bill, and his guest was Barbara Hamilton. Commercial for "Mini-Gym" with Hal Smith. FTA: Central or Eastern Canada.

ch 2 1442 EDT--Women's exercise show, probably Canadian.

ch 2 1448 EDT--Canadian talk show on 'wife busting', entitled "Take 30"; the host's name was Ed Reed and Paul Solas. Commercial for CBC's own Tommy Rotton(?), a song show. At 1500 "Family Court" show came on the air. FTA: Central Canada; suspect CPUL-2

Thu May 29 Re ch 2 1545 EDT--NBC had on the game show, "Wheel of Fortune"; this is not the network time for the show. FTA: SW U.S., Mexico

Paul D. Tranka, 64 Weaver Ave., Buffalo, NY 14206 (1975 units)

Thu May 22 Re ch 3 ? EDT--Barry-Young news. FTA: W/N.

Thu May 29 Re ch 3 1259 EDT--Logo that looks like KTVB's as seen here. Are they still using 167 KAND and KLAN at 1250 and KOTA at 1640.

Paul E. Potepny, Box 140, Muskegon, MI 49662 (1975 units)

Wed May 28 Re ch 3 0334 EDT--Commercial for Sundown Drive-In Theatres. 0335 Sports, Jack Sandberg. It is not CPUS, QLOS, KTVB, KVDO, KDLO or KLEW as Paul called person to person to each station. Also not KID, KRTV, KOTA or KTVB as I called info in each city (FEA). FTA: WNW.

ch 2 0810 EDT--Slide seen and possibly a John Wayne movie as Paul thinks he heard his voice over CCI. FTA: WNW.

Frank Aden, Jr., 448 NE Olney Ave., Bend OR 97701 (1975 units)

Sun Jun 8 Re ch 3 2300 PDT--Local Movie. One of the "Tummy" series. Could not tell who was in it as most of the time had no video only audio over CCI. FTA: SW U.S. suspect KSNB, KTVB or KRTV.

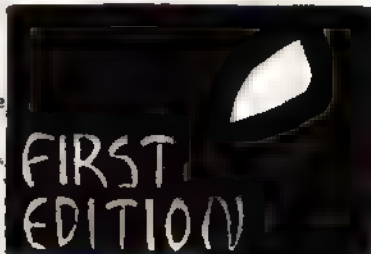

Clarke W. Ingram, 5201 Colewood Drive, Pittsburgh, PA 15236 (1974 loggings)

All of the following logged via meteor scatter (MS). Times EST

Mon Dec 2 ch 2 0155 - - 3/4 unID CB, no test tone; same pattern noted at 0220 and 0335 (same station?). PTA: E. Canada.

" " " " " 0209 - - Slide with "First Edition" in white in the lower left of a dark background, with some indistinguishable shape in upper right center. Seen again 0214 Dec 14 via MS, suspect a late- or all-night program. Note distinctive lettering style of slide. PTA: NE US, susp. WGBH.

Thu Dec 5 ch 5 0045 - - ABC Wide World of Entertainment: Demond Wilson "roasting" Redd Foxx. Suspect WCVB-5.

Fri Dec 13 ch 2 0430 - - 3/4 unID CB, no test tone, perhaps same as Dec 2 logging. Suspect CFCN8-2, WGBH-2, WCBS-2.

Sat Dec 14 ch 4 0246 - - 3/4 unID CB, no tone; possibly relay (or originator) of ch 2 above. PTA: Central to East Canada.

" " " ch 2 0400 - - MGM lion signifying start of movie What station has movie start at 0400? WCBS-2? WLBZ-2?

" " " " " 0435 - - Tarzan movie (?), again at 0503; perhaps same as logging above. Suspect WCBS-2.

" " " " " 0534 - - "The Late Show" slide, with those letters to left in white, and a caricature of a man in nightgown and cap holding something (a candle?) to right. Movie appeared to have exercising scenes. PTA: E to NE US, highly suspect WCBS-2. Can anyone confirm/deny?

" " " ch 4 0557 - - 3/4 CB with superimposed design resembling sketch to right. Seen several times between 0555-0600, but not noted after 0600. There may have been lettering superimposed over top of white section or above it. The drawing to right is not to scale as to no. of bars, etc. PTA: NE US and Eastern Canada.

Sun Dec 15 ch 5 0729 - - 3/4 CB w/ no readable audio or ID. PTA: NE US, suspects are WNEW-5, WCVB-5, WABI-5, Canadians.

(continued)

Clarke W. Ingram (continued) All loggings below 1974 via MS; times are EST.

Sun Dec 15 ch 5 0738 - - ID CBE-TP with ID too small to distinguish. Suspect WCVB or WTTG (both use this pattern, but at this hr?)

Fri Dec 27 ch 4 0241 - - ID CBE-TP with ID unreadable. PTA: NE and E US, suspect WRC-4, WNBC-4, WBZ-4.

" " " ch 2 0523 - - 3/4 CB with 1000 Hz test tone. Suspect WLBZ-2.

" " " ch 4 0625 - - 1/2-unID CB without test tone. PTA: East Central U.S. highly suspect KMOX-4; also WTTV-4, WRBF-4.

Sat Dec 28 ch 4 0250 - - Gray scale with 10 segments. suspect WRC-4.

" " " ch 2 0431 - - Multiburst (resolution) pattern (#19 in Goldman's Guide), seen again 0534, 0540 Suspect WLBZ, WGBH.

" " " " 0543 - - UnID 3/4 CB with music. with PTA NE US and Canada. Suspect WGBH, WLBZ, Canadians, possibly WMAR-2.

Sun Dec 29 ---- 0555 - - Super burst, over one minute. On ch 2, detective or murder mystery movie, on ch 3, unID 3/4 CB with no test tone; on ch 5, variety or song program with "clean-cut kids," similar to "Johnny Mann" or like "Spring Street USA." Nothing on 4 & 6. Any ideas?

Finally, a high-priority 1975 MS logging:

April-May ch 6 0550 - - Custom test pattern  
to  
0600

as sketched to the right, seen virtually every weekday morning between 0550 and 0600 by MS on CATV setup, during April and May. The call of the station is to the left of pattern as shown, and may have been WIT?.

Since heading of CATV antenna not known, no PTA can be given. HIGHLY SUSPECT is stn WTEV-6, Providence, RI (New Bedford, Massachusetts). Rog Brown...you've seen their TP...is this it???? IF not WTEV, suspect WBRC, WDSU, KTAL.

In case you're wondering why almost all loggings have a PTA of the north-eastern US or Canada, it's because my VHF antenna is stuck in that direction, thanks to a faulty rotor. I hope to junk the whole setup very soon. If you're also wondering why this doesn't look like Frank Aden's typewriter, it's because I do my own CCI drawings and type this to save him the trouble. Bixing MS is lots of fun with a 5-inch screen, hi! Have fun, Frank 73.

-----  
Steve West, 432 Kenmore Rd., Havertown, PA 19063 (1974 unids)

Tue Jul 3 Ks ch 4 1732 EDT—Record commercial "72 Hits" ad said to send orders to KARD-TV Wichita KS. Steve has a local on ch 3 (KYN) 5 miles distant so it could not have been on ch 3 which KARD is on. Could someone be selling records through KARD or is it a repeater? Steve said he sent a letter to KARD and they confirmed it for ch 3.

TV-CCI

JULY 1975

## IDENTIFICATIONS FOR MAY TV-CCI

Ken Simon identified John Gould's ch 3 as Telerebelde ch 3 HOLGUIN CUBA. Ken said the 5 inside the logo is for the key station in Santiago. Ken reports that Paul Traska's ch 6 SS is not WCIX and RJ Egan's ch 5 local news is def. not WPTV.

Steve West said his ch 70 unit was a Scranton PA repeater.

That finishes up TV-CCI for July. Next month I hope to see everybody at the WTPA Convention in Florida. Bill Frahm and I are planning to fly down. TV-CCI for September may not make it in the September WUD as I plan to do some more traveling after the convention.

## TV RECEIVERS OF THE FUTURE

by Morrie Goldman

This is a follow up report on the two-part article that I concluded last month. It seems that the state-of-the-art has moved a bit faster than I anticipated... Zenith already has a set in their 1975 lineup which uses a SAW (surface acoustic wave) i-f filter. The Zenith 19" model 150-401 is the only model using the SAW filter, and the same model is available with a conventional i-f system. Zenith decided to release these sets without any fanfare to allow "field testing" of the system. Gradually, all Zenith receivers will probably pick up the SAW filter design. At this stage however, adjacent channel rejection is nothing to brag about. In fact, an adjacent channel sound trap is required in the circuit (used in all conventional and SAW filter TV i-f systems, but not the Heath LC filter i-f). The completed Zenith system has adjacent channel rejection characteristics that are close to the conventional Zenith receivers. Motorola Semiconductor Products Inc., is one more of the many companies in SAW filter research. Motorola has put together an application note (AN-751) describing a complete SAW filter i-f system. The application note is very complete, and even includes a PC board layout. Ap Note AN-751 is available by writing to Motorola Semiconductor Products Inc., PO Box 20912, Phoenix, Arizona 85036.

It may be of interest to WTEFAers to know that Zenith's own i-f engineering department checked out the LC i-f filter used in the latest Heath color sets. The results were somewhat predictable. Off the record, one engineer admitted that Heath's filter (manufactured by Coilcraft of Cary, Illinois) i-f system provides the highest adjacent channel rejection of any set now on the market. They also found however, that it is difficult to tune a weak signal for best audio and video reception. If the fine tuning is adjusted for best picture, audio is attenuated. This condition has also been noted by several others who have evaluated the performance of the Heath i-f system. It is then clear that the response of the LC filter was designed for very high adjacent channel rejection (greater than 50 dB for adjacent sound & greater than 60 dB for adjacent video) at a slight sacrifice of audio performance. This may be an acceptable sacrifice for many DXers who are plagued by severe adjacent channel problems. With the proper design, this performance compromise can be eliminated to yield high adjacent channel rejection and excellent audio performance. That design is a dual i-f system, using entirely separate i-f systems for sound and picture. We hope to have more information on this approach in a future YUD.

Another noteworthy development is a system that completely eliminates the vertical hold control from television sets. The "vertical count-down" system divides the horizontal sync pulses to develop a vertical sync signal. Both the vertical oscillator and the vertical hold control (which tunes the vertical oscillator) are eliminated. Several 1975 TV sets already incorporate this feature and others are sure to follow. In theory, weak signal vertical sync should be excellent with the count-down system. We have not yet seen the system in action on a weak signal.

### PUBLISHERS' NOTES (CONTINUED FROM PAGE 2)

PERSEIDS METEOR SCATTER TEST... KQRS-FM, 92.5, Golden Valley Minnesota, will conduct a special test in the early morning of August 12. The test will start at about 1 AM, following the station's regular sign-off. Chief Engineer Terry A Stripsky will make several announcements and ID's. Prior to the start of the test, an explanation will be given as to the purpose of the test. This should be a great chance for FM-DXers to log KQRS at the height of the Perseids meteor shower. Reception reports are requested!

NORTHERN CALIFORNIA DX GATHERING... WTEFAer Don Erickson informs us that NORCAL DXers will hold a gathering August 29 through September 1, 1975. There will be technical sessions, equipment displays, quizzes covering various types of DX, an auction, and plenty of time for gabfesting. The convention takes place at the El Rancho Inn, 1100 El Camion Real, Milbrae, CA 94030. Rooms start at \$16 for a single. Registration fee is \$1 and covers the cost of refreshments and door prizes. Further info is available from: NORCAL, Rick Herald, 17412 Rolando Avenue, Castro Valley, CA 94546.

NEW WESTERN FM EDITOR... Send all Western FM-DX reports to Steve Wiseblood, 707 Loma Way, Santa Maria, CA 93454.
